**Belong – Include – Exchange – Join**

**Submit your idea – propose a session!**

Dear members of the Swiss Society of Cardiology

We have initiated preparations for our Joint Annual Meeting of the Swiss Society of Cardiology, the Swiss Society of Cardiac Surgery and its partners, set to take place from 15 – 17 June 2022, in St. Gallen.

One of the main goals of the SSC/SGK Strategy is to promote cohesion within our community and between all those involved. We would like to highlight this at the 2022 congress, which we are confident will be held again as an in-person meeting.

With this in mind, we would like to invite you to share your ideas for the scientific programme with us.

Please send your proposal (topic, session and presentation titles, speakers) in English, German or French to [marjam.ruediger@swisscardio.ch](mailto:marjam.ruediger@swisscardio.ch) no later than July 9, 2021\*.

We are looking forward to your input.

In the name of the scientific committee

Prof. Dr. Gabriela Kuster Pfister, Congress President 2021-2022

\* All suggestions will be reviewed by the scientific committee with participation of all societies and working group representatives. No guarantee is provided that the proposal will be considered. We strive for a balanced educational and scientific programme, incorporating a wide range of topics for multiple interests, delivered by a faculty balanced to represent the diversity of our community.
