A Swiss Webinar series

18 – 19h, Zoom-sessions in English

Come and join us!

2024: Jun. 04 / Sep. 17 / Nov. 19

2025: Feb. 25 / Mar. 26 / Apr. 01 / Jun. 03 / Sep. 16 / Oct. 21 / Nov. 25

Approximately 150 000 patients suffer from Heart failure in Switzerland with an incidence of 100–900 cases per 100 000 person-years making it a major public health concern ^{1,2}.

Developing awareness and improving heart failure patient care is a key objective of the Heart Failure Working Group of the Swiss Society of Cardiology. On this notion, the group is happy to invite you to a regular rendezvous with heart failure specialists from all over Switzerland.

The second cycle of the successful Swiss Heart Failure Webinar Series will cover a wide range of topics in the field of heart failure management. Each webinar will contain a main talk about a clinically relevant heart failure topic, followed by a moderated discussion. Each webinar (except the HFA update webinars) will also feature a “speed journal club” at the end, in which a young clinical fellow will present and discuss a recently published study. With the new and slightly adapted format we hope to address your needs even more and help you staying up to date in the growing field of heart failure management.

Heart failure management needs a multidisciplinary team. Therefore every healthcare professional with an interest on the topic, from general cardiologists, internists, interventional cardiologists, diabetologists, geriatricians to heart failure specialists and nurses are invited to participate.

Scan the QR code and register today! We look very much forward to your participation.

2024

June 04

HFA Update Webinar 2024: What's new in heart failure

Speakers: Docteur Nana Poku, Hôpitaux Universitaires Genève & Dr. med. Evi Scheler, Kantonsspital St.Gallen

Moderators: Dr. med. Marc Buser, Kantonsspital St.Gallen & Dr. med. Matthias Nägele, Universitätsspital Zürich

Further dates:

September 17

Cardiogenetics in heart failure: State of the art in genetic counselling and cardiogenetic work-up of HF patients

Speaker: PD Dr. med. Siv Marit Fokstuen, Universitätsspital Zürich & Hôpitaux Universitaires Genève

Moderator: Prof. Katja Odening, Universität Bern

Young fellow: tbd

November 19

Focus on the right heart: Managing right heart failure and secondary tricuspid regurgitation

Speaker: Prof. Dr. med. Fabien Praz, Inselspital - Universitätsspital Bern

Moderator: Dr. med. Matthias Paul, Luzerner Kantonsspital, Luzern

Young fellow: tbd

2025

February 25

State of the art in performing and interpreting spiroergometries in HF patients

Speaker: PD Dr. med. David Niederseer, Hochgebirgsklinik Davos

Moderator: Prof. Dr. med. Matthias Wilhelm, Inselspital - Universitätsspital Bern

Young fellow: Dr. med. Sumal Suresh, Inselspital - Universitätsspital Bern

April 01

Digital tools in heart failure (apps, scores, remote monitoring devices): Overview and advice for clinical implementation

Speaker: Dr. med. Gregorio Tersalvi, Ente Ospedaliero Cantonale (EOC), Mendrisio

Moderator: Dr. med. Monika Fürholz, Inselspital - Universitätsspital Bern

Young fellow: tbd

June 03

HFA Update Webinar 2025: What's new in heart failure?

September 16

Medical drug therapy of advanced HF patients: What works, what doesn't and which pitfalls to look out for?

October 21

CRT and ICD in 2025: Who to refer for device implantation and for which device?

November 25

HF therapy in patients with advanced CKD: Can the 'fantastic four' be implemented in all patients and how can the nephrologist help?

Subjects and speakers will be confirmed soon.

Credits granted per session: SGAIM (1 AIM) and SGK (1 CME category 1C). Credits are awarded according to participation. Registration and information via QR-Code or via www.fent-event.ch/kongresse.
Event run by www.fent-event.ch.
